The screenshot shows the WIC Reset Utility v.5.0.11 software interface. The title bar reads "WIC Reset Utility v.5.0.11 Dec 5 2016". The menu bar includes "File", "Buy Reset keys", "Support", "Feedback", and "Help". The main window is divided into several sections. On the left, there is a sidebar with a printer icon and the text "EPSON L220 Series", and a "Refresh detected printers list" button. The main area has a "Control" tab selected, with sub-tabs for "Supported models", "News", and "FAQ". A "Live Support is Online" indicator is visible in the top right. The "Waste counters" section is expanded, showing three buttons: "Read waste counters", "Reset waste counters" (highlighted with a red box and a red arrow), and "Check Reset Key". Below this are sections for "Ink levels", "Information" (with "Status", "Report", and "List of supported errors" buttons), and "Cleaning" (with "Head cleaning" and "Ink charge" buttons, and a dropdown menu set to "Gentle Cleaning").

Please, remember, that fatal error is not related to waste overflow and it could not be reset by software.
If you experience communication errors or do not see your printer, please, try the following:

- Restart the printer and your computer.
- Make sure that USB or network connection is of the good quality. Try to change USB cable and port.
- Disable `status monitor` and `my epson portal` via printing preferences or task manager. [\[Click here to find out how\]](#)
- Cancel all printer jobs and disable all applications that can communicate with the printer.
