Hi Duncan

Thanks for emailing the document.

Council issued the document to us two weeks ago. Following a review of the plans we have advised the council team that the Middleton Street plans conflict with the masterplan strategies. Increasing car parking supply within the centre itself conflicts with the current strategy as it would attract more vehicle trips along Lawson Street. A key aim of the strategies is to reduce parking provision within the core of the centre and relocate parking to the edges, thus reducing the need to drive into and through the town centre.

If you have any queries please let me know.

Regards

Mike

Thanks Duncan, that's great.

We'll make sure we evaluate your comments and integrate into the further development of the catalyst sites.

Cheers

Mike

G'day Jo and Mike

Thanks for the session on Saturday. I thought I'd finished but more ideas came to mind:

1. the catalyst site mapping needs to express that the Sandhills site is contiguous with Rec Ground one, eg some arrows over each boundary.
2. I strongly suggest that all stages and plans for the Sandhills site include aboriginal aspirations, independent of the results in court.
3. can we give the Sandhills site its aboriginal name, ie show both?
4. Council recently approved an expansion of the Middleton Street carpark onto Denning Park. I think this should be shown on that catalyst site map (as a Stage 1 action) so that folk see the link when works begin in the next 12 months.
5. Surf Club: I agree strongly with the suggestion of not going commercial, for three reasons:
 - a. there is high erosion hazard there and we must not add investment in such locations. A very low key kiosk might be OK;
